You will see by the Report of last year, made by the Selectmen, ending March 1st, 1868, that there was one thousand dollars (\$1000) due as interest on outstanding notes. But we find by carefully casting the interest due up to that time, that there was due as interest three thousand nine hundred twenty-eight dollars and sixty-three cents (\$3928 63), making a debt upon the tax-payers of sixty-four thousand seven hundred and thirty dollars and twenty-two cents (\$64,730 22), instead of sixty-one thousand eight hundred five dollars and fifty-nine cents, (\$61,-805 59) as reported last year.
